THE STRENGTH OF INNOVATION®

For over three decades, Ultimate Support Systems has provided musicians with unique support solutions that are crafted with unparalleled innovation and quality and accompanied by superior customer service. Innovation is at the core of Ultimate Support's past, present, and future. You can trace Ultimate Support's roots back to 1977, when company founder, musician, and inventor Darrell Schoenig developed an alternative to the existing unwieldy and unsightly speaker stands. What came after was a whirlwind of industry standard products such as the first successful line of lightweight aluminum speaker stands, the legendary APEX keyboard stand, and innovative maverick technologies such as the world's first one-handed height-adjustable microphone stand. Thank you for your continued support!

ULTIMATE SUPPORT® LIMITED LIFETIME WARRANTY

Ultimate Support products are constructed of the finest materials and designed and tested to stand up to the demanding lifestyle of the touring musician, gigging DJ, and working sound engineer. In the unlikely event that a product should fail due to manufacturing defect, Ultimate Support is pleased to repair or replace that product.

Please see www.ultimatesupport.com for more information.

This warranty applies to the original purchaser only and does not include damage to the product resulting from normal wear and tear, accident, misuse, improper installation or operation, or unauthorized repair or alterations.

SPEAKER STANDS *Air-Powered Series*

Air-Powered Series speaker stands from Ultimate Support represent everything all other speaker stands aspire to be. They're incredibly strong, extraordinarily sturdy, lightweight, 100% field serviceable, AND raise and lower speakers on their own! Driven by innovation and years of research and development, the Air-Powered Series features an internal shock that lifts speakers weighing 50 lbs and less with no effort, and requires very little end-user effort to raise speakers weighing more than 50 lbs!

TS-100B, item #16759

Air-Powered Series Lift-assist Aluminum Tripod Speaker Stand with Integrated Speaker Adapter.

Specs:
- Height: 3'8" - 6'7" (1118 mm - 2007 mm)
- Weight: 12.1 lbs. (5.5 kg)
- Base Diameter: 47" (1194 mm)
- Telescoping Tube Diameter: 1.5" (38 mm)
- Adapter Diameter: 1.375" (35 mm)
- Load Capacity: 150 lbs. (68.2 kg)
- Folded: 43.5" x 5.5" (1105 mm x 140 mm)

Oversized, heavy wall aluminum tubing for strength and portability.

Internal air-powered shock gently raises and lowers the speaker for you.

Patented tripod design and glass-reinforced fittings and collars for gig-worthy strength.

TS-100B

TS-110BL

SPEAKER STANDS *Original Series*

TS-80 tripod speaker stands from Ultimate Support are the industry standard stands you've seen on stages for decades. They're sturdy and lightweight, 100% field serviceable, and are used in more venues, on more stages, and in more shows than any other speaker stand in history. Ultimate Support invented the tripod speaker stand over 30 years ago and the TS-80B, TS-80S, and TS-88B continue the legacy of quality, innovation, and strength today.

TS-88B

SPEAKER STANDS *TeleLock® Series*

TeleLock Series speaker stands are some of the easiest speaker stands to use thanks to the patented TeleLock collar. Set the TeleLock collar to the "Raise" setting and the Auto-lock technology provides just the right amount of resistance to lock the telescoping pole in place while you adjust the height of your speaker. Set it to the "Lower" setting and gently guide your speaker down. Set it to the "Lock" setting and the speaker will securely lock in place. Owning and using TeleLock speaker stands is like having tour support built into every show!

TS-90B, item #13908

TeleLock® Series Lift-assist Aluminum Speaker Stand with Integrated Speaker Adapter

GUITAR BAGS SERIESONE

Series ONE bags are the perfect balance of price and performance. The thick foam padding and soft Nylex interiors provide more protection inside and out than similarly priced soft bags. If you have extra "stuff" to take with you and your guitar, there's plenty of roomy storage in the three external pockets for cables, picks, music, capos, MP3 players and more. And, the ergonomic backpack straps just beg to be used for gigging on the go, while the adjustable interior storage and padded neck support mean your instrument will be safe when you get there. There are three Series ONE soft bags for guitars from which to choose.

USS1-EG, item #17267

Series ONE Soft Case for Electric Guitar with Backpack Straps, Three Roomy External Storage Pockets, and Internal Padded Neck Support

Specs:
- Weight: 4.1lb (1.8kg)
- Outside Measurements: Neck Width - 8.5" (216 mm), Body Width - 16.5" (419 mm), Height - 44.5" (1130 mm), Depth - 3.5" (89 mm)
- Inside Measurements: Neck - 7" (178 mm), Body - 15" (381 mm), Height - 43" (1092), Depth - 2" (50 mm)

Best value offering more features than any comparable bag!

Backpack straps for extra comfort that tuck away when not in use.

3 exterior pockets for all your foot pedals, cables, headphones, and accessories.

USS1-AG, item #17268

Series ONE Soft Case for Acoustic Guitar with Backpack Straps, Three Roomy External Storage Pockets, and Internal Padded Neck Support

Specs:
- Weight: 4.2lb (2kg)
- Outside Measurements: Neck Width - 8.5" (216 mm), Body Width - 16.5" (419 mm), Height - 44.5" (1130 mm), Depth - 5.5" (140 mm)
- Inside Measurements: Neck - 7" (178 mm), Body - 15" (381 mm), Height - 43" (1092), Depth - 4" (102 mm)

USS1-EB, item #17269

Series ONE Soft Case for Electric Bass Guitar with Backpack Straps, Three Roomy External Storage Pockets, and Internal Padded Neck Support
